This week's TOP SCENE

TALES from the TARDIS

Amy Cheetham's fave scene!

From: *Smith and Jones* Scare factor: 4/5

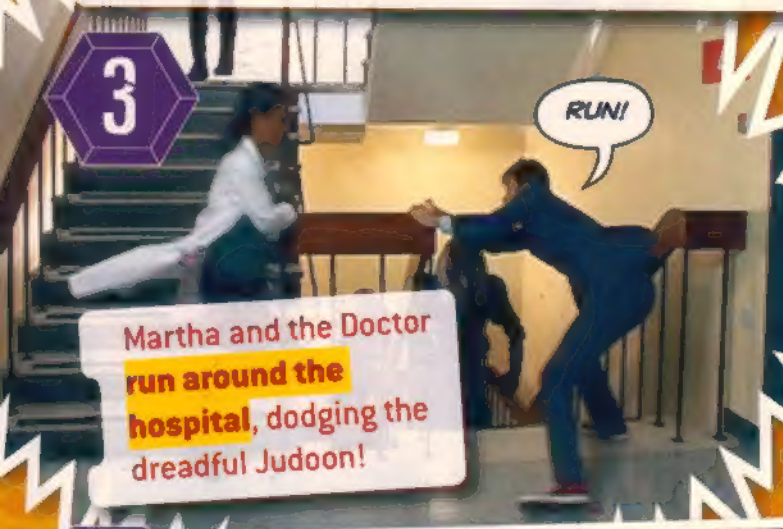
1

Royal Hope Hospital has been **transported to the Moon**, but even stranger are the scary-looking **creatures shining lights** in people's faces.

2

The Doctor knows who they are – **Judoon**. And they're **looking for a non-human** – eek!

3



Martha and the Doctor **run around the hospital**, dodging the dreadful Judoon!

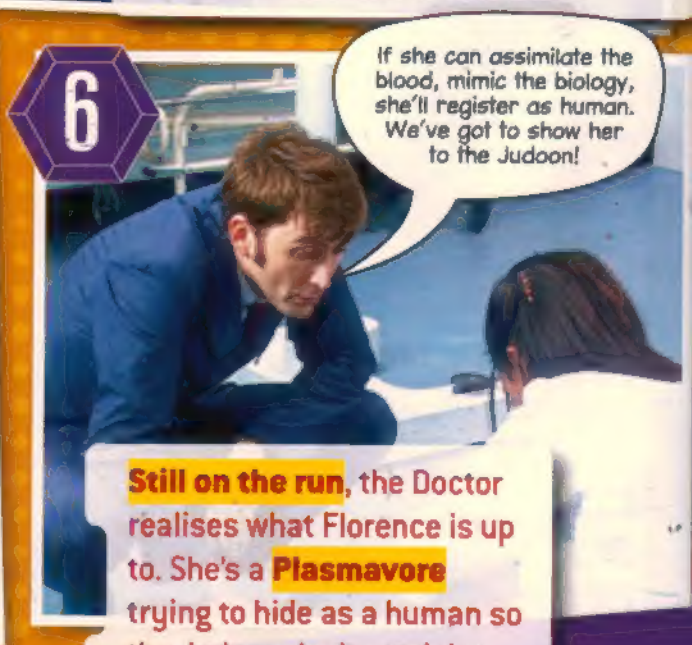
4

The Doctor suspects the non-human is **posing as a patient** in the hospital, but isn't sure how to find them.

5

While Martha searches for the answer, she stumbles upon **someone drinking Mr Stoker's** blood. It's a patient called **Florence Finnegan**!

6



Still on the run, the Doctor realises what Florence is up to. She's a **Plasmavore** trying to hide as a human so the Judoon don't catch her.

COOL WHO ACTION EVERY WEEK!

7

HUMAN!

WURRLING!

But they're too late! The Judoon have **found Florence** and she's registered as **human** because of the human **blood she's slurped**!

8

NON-HUMAN!

WURRLING!

Suddenly, the Doctor and Martha bump into the Judoon – there's **no escaping now**!

9

And again!

Luckily, the Doctor is a pro at getting himself out of **sticky situations**...

10

Martha, stay here. I need time. You need to hold them up.

But running away won't solve anything, the **Doctor needs more time** to trap Florence.

11

He **kisses Martha** hoping the Judoon notice his **non-human traces** on her. This should buy him some time!

12

Before Martha can say anything, the Doctor whizzes off to **find Florence**.

13

HUMAN. WAIT. NON-HUMAN TRACE SUSPECTED.

WURRLING!

I know who you're looking for. She calls herself Florence.

But while the Doctor sorts out the pesky Plasmavore, Martha finds herself in **a bit of a Judoon jam**...

THE POISON PLANET

PART ONE

Death's Door.

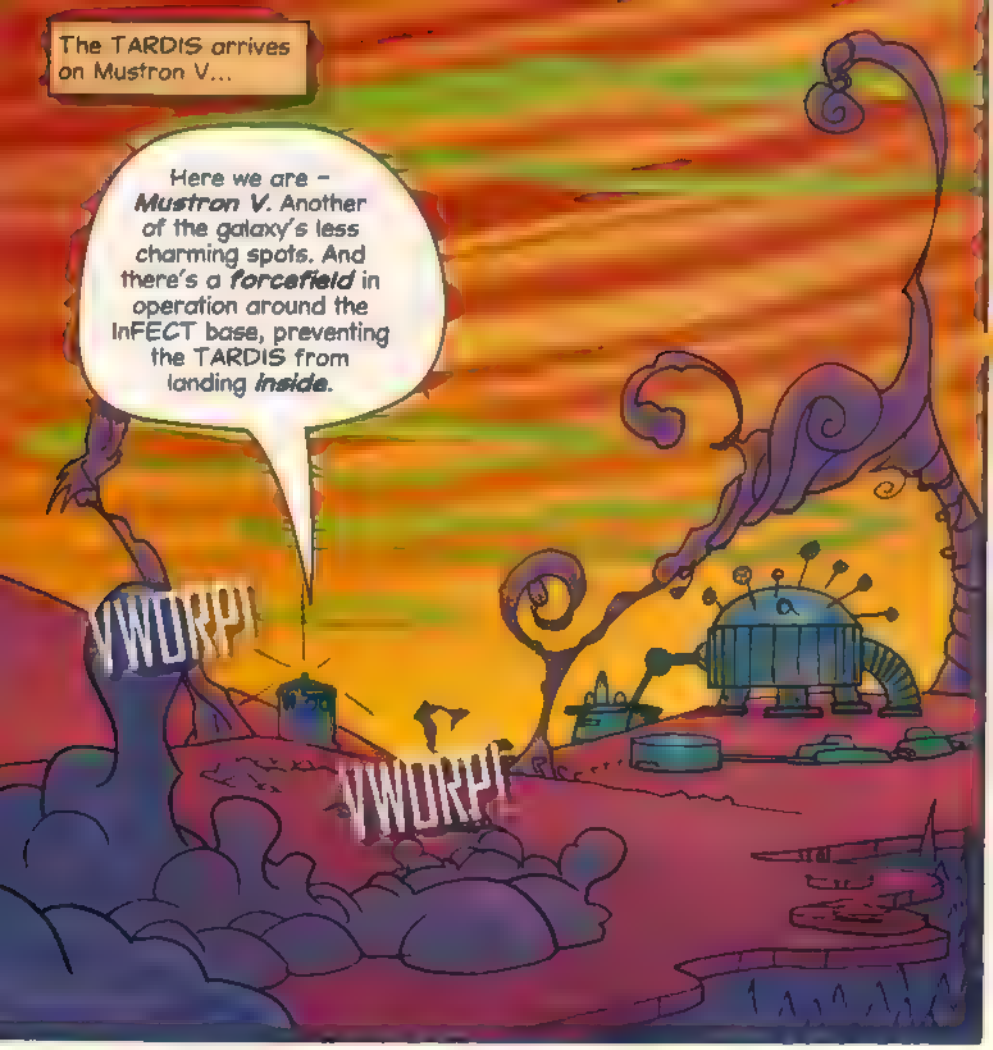
A small, remote planet on the edge of the Bromid System, *avoided* by every space-faring civilisation in this sector of the galaxy. Its atmosphere is *toxic*...

No-one comes here. Not if they want to *live*.

My spacesuit's *punctured!* I'm going to *die!*

Script TREVOR BAXENDALE
Art JOHN ROSS
Colours ALAN CRADDOCK
Letters PAUL VYSE

In the Space-Time Vortex...
WEEP! WEEP! WEEP!
Hello – that doesn't sound good...
That's a Mayday – a call for help. Someone's in trouble – the question is... where?
Soon...
According to the TARDIS, this is planetoid KX77. Not exactly a beauty spot. In fact, it's positively lethal. Poisonous atmosphere, acid fog, severe storms. It's not known as Death's Door for nothing...
... and this is where the distress signal come from, all right.
And this must be the poor chap who sent the Mayday call. The distress signal is still going strong, but he's little more than a skeleton...
His spacesuit must have been punctured and the corrosive air has found its way inside. Nasty way to go.
Dr Kaleb Loss – a research scientist from the Institute For Exo-Contamination Treatment. They find cures for all kind of alien diseases...
But InFECT is based light years from here. And what's in that sample canister?
InFECT
DR. KALEB LOSS
And soon...
Only one way to find out – I'll have to take Dr Loss home.
There – full coordinates for the Mustron planetary system...



The TARDIS arrives on Mustron V...
Here we are – ***Mustron V.*** Another of the galaxy's less charming spots. And there's a ***forcefield*** in operation around the InFECT base, preventing the TARDIS from landing ***inside.***
VWORP!
VWORP!

Looks like we'll have to do this the ***hard way,*** Kaleb old son...
These clever ***fungal growths*** must've found a way to survive with no air. And the low gravity allows them to grow into some brilliant shapes...

Y'know, I really miss having someone to talk to. All this excitement and wonder, and no one to share it with...

And no offence, Kaleb, but you don't really count. I mean, I can talk to you all right... but it's a bit one-sided.
Anyway, here we are. No doorbell in sight, so I'll have to use my ***own*** special key.
AIRLOCK

vreeeeeeeee!

Shhhhhhhhp!
Hello! Anyone home?

Inside the base...
Well, it's all *very quiet* here. Worryingly quiet. The sort of quiet that makes me want to stick my nose in...
MEDICAL WARD
According to the base computer, there should be five active team members here. Without Kaleb Loss, that leaves four scientists. But where are they?
This place is *deserted*.
Unless the research team is planning a *surprise party* and they're all *hiding* in here.
Hello? Anyone there?
Well, *someone's* in here. I'm picking up *life readings*.
Come on out, I know you're in here...!

The fall of Arcadia

Q In *Doomsday* the Doctor says to Dalek Sec, "I was there at the fall of Arcadia." What does that mean?

Alice Stansfield

A The Time War is a bit of a mystery to us, Alice. The Doctor doesn't like to talk about it in any detail because it's still **too painful**, and it took place across time and space in ways we don't even understand. All we can say is that Arcadia must have been the site of a **particularly dreadful battle between the Time Lords and the Daleks**. But whether it's a city, a planet or a civilisation we don't yet know. Perhaps one day the full story will be told...
